Introduction

Finance is lifeblood for every organization and its success depends upon the sound management of financial resources. Finance is gaining importance, as it accounts for a significant part of the total resources deployed; every decision involves finances and every manager is concerned with their effective utilization. For that purpose, financial management involves management of flow of funds i.e. inflows and outflows and is of paramount importance for the growth and success of the organization. The training programme is designed to discuss the nuts and bolts of financial management and to give an overview of its various aspects as of interest to various functional managers. The primary objective of the program is to develop a fair understanding of different concepts and techniques of financial management like, financial statements, sources of finance, cost control, budgeting, financial appraisal of projects, GST and its teething problems in the implementations, etc. so as to ensure better use of funds.
