Managerial Leadership & Change Management

During- 04-08, August 2025, Leh (Ladakh)

Introduction

Under the changing Socio-Economic condition today's organisations, the question of whether the change will occur is no longer relevant. Change will occur. It is no longer a choice. If the managers are to be effective, they can no longer be content to let the change occur as it will. They must be able to develop strategies to plan, direct and control change to the advantage of the organisation. Success of any organisation depends directly on effective managerial leadership. Leaders energize the organisation to meet the competitive challenges and to serve demanding needs of the customer. Effective leadership provides the basis for effective use of all the resources to achieve the organisational goals. The resistance to change is contradictory to a manager's primary role as a leader. Managerial leadership influences behaviour of others, individually and in groups. Influencing means moving from one behaviour to another, in other words, transformation.

Keeping above in view the programme has been designed to provide inputs for managerial leadership to proactively develop strategies, plan to take advantage of fast changing environment and become change managers.

Programme Objective

- ▣ To identify the challenges and pressures for change.
- ▣ Understanding significance of Transformational Leadership and its impact on organization.
- ▣ To provide the participants an opportunity for sharing of practical experiences on the subject.
- ▣ To create an opportunity to gain insight into the process of management of change.
